We Make!**

We Make!

A benchmark in **precision technologies**

Our proven **expertise** in the industrial field since the 14th century is based on our ability to adapt and has resulted in us being a benchmark today in advanced manufacturing and precision technologies.

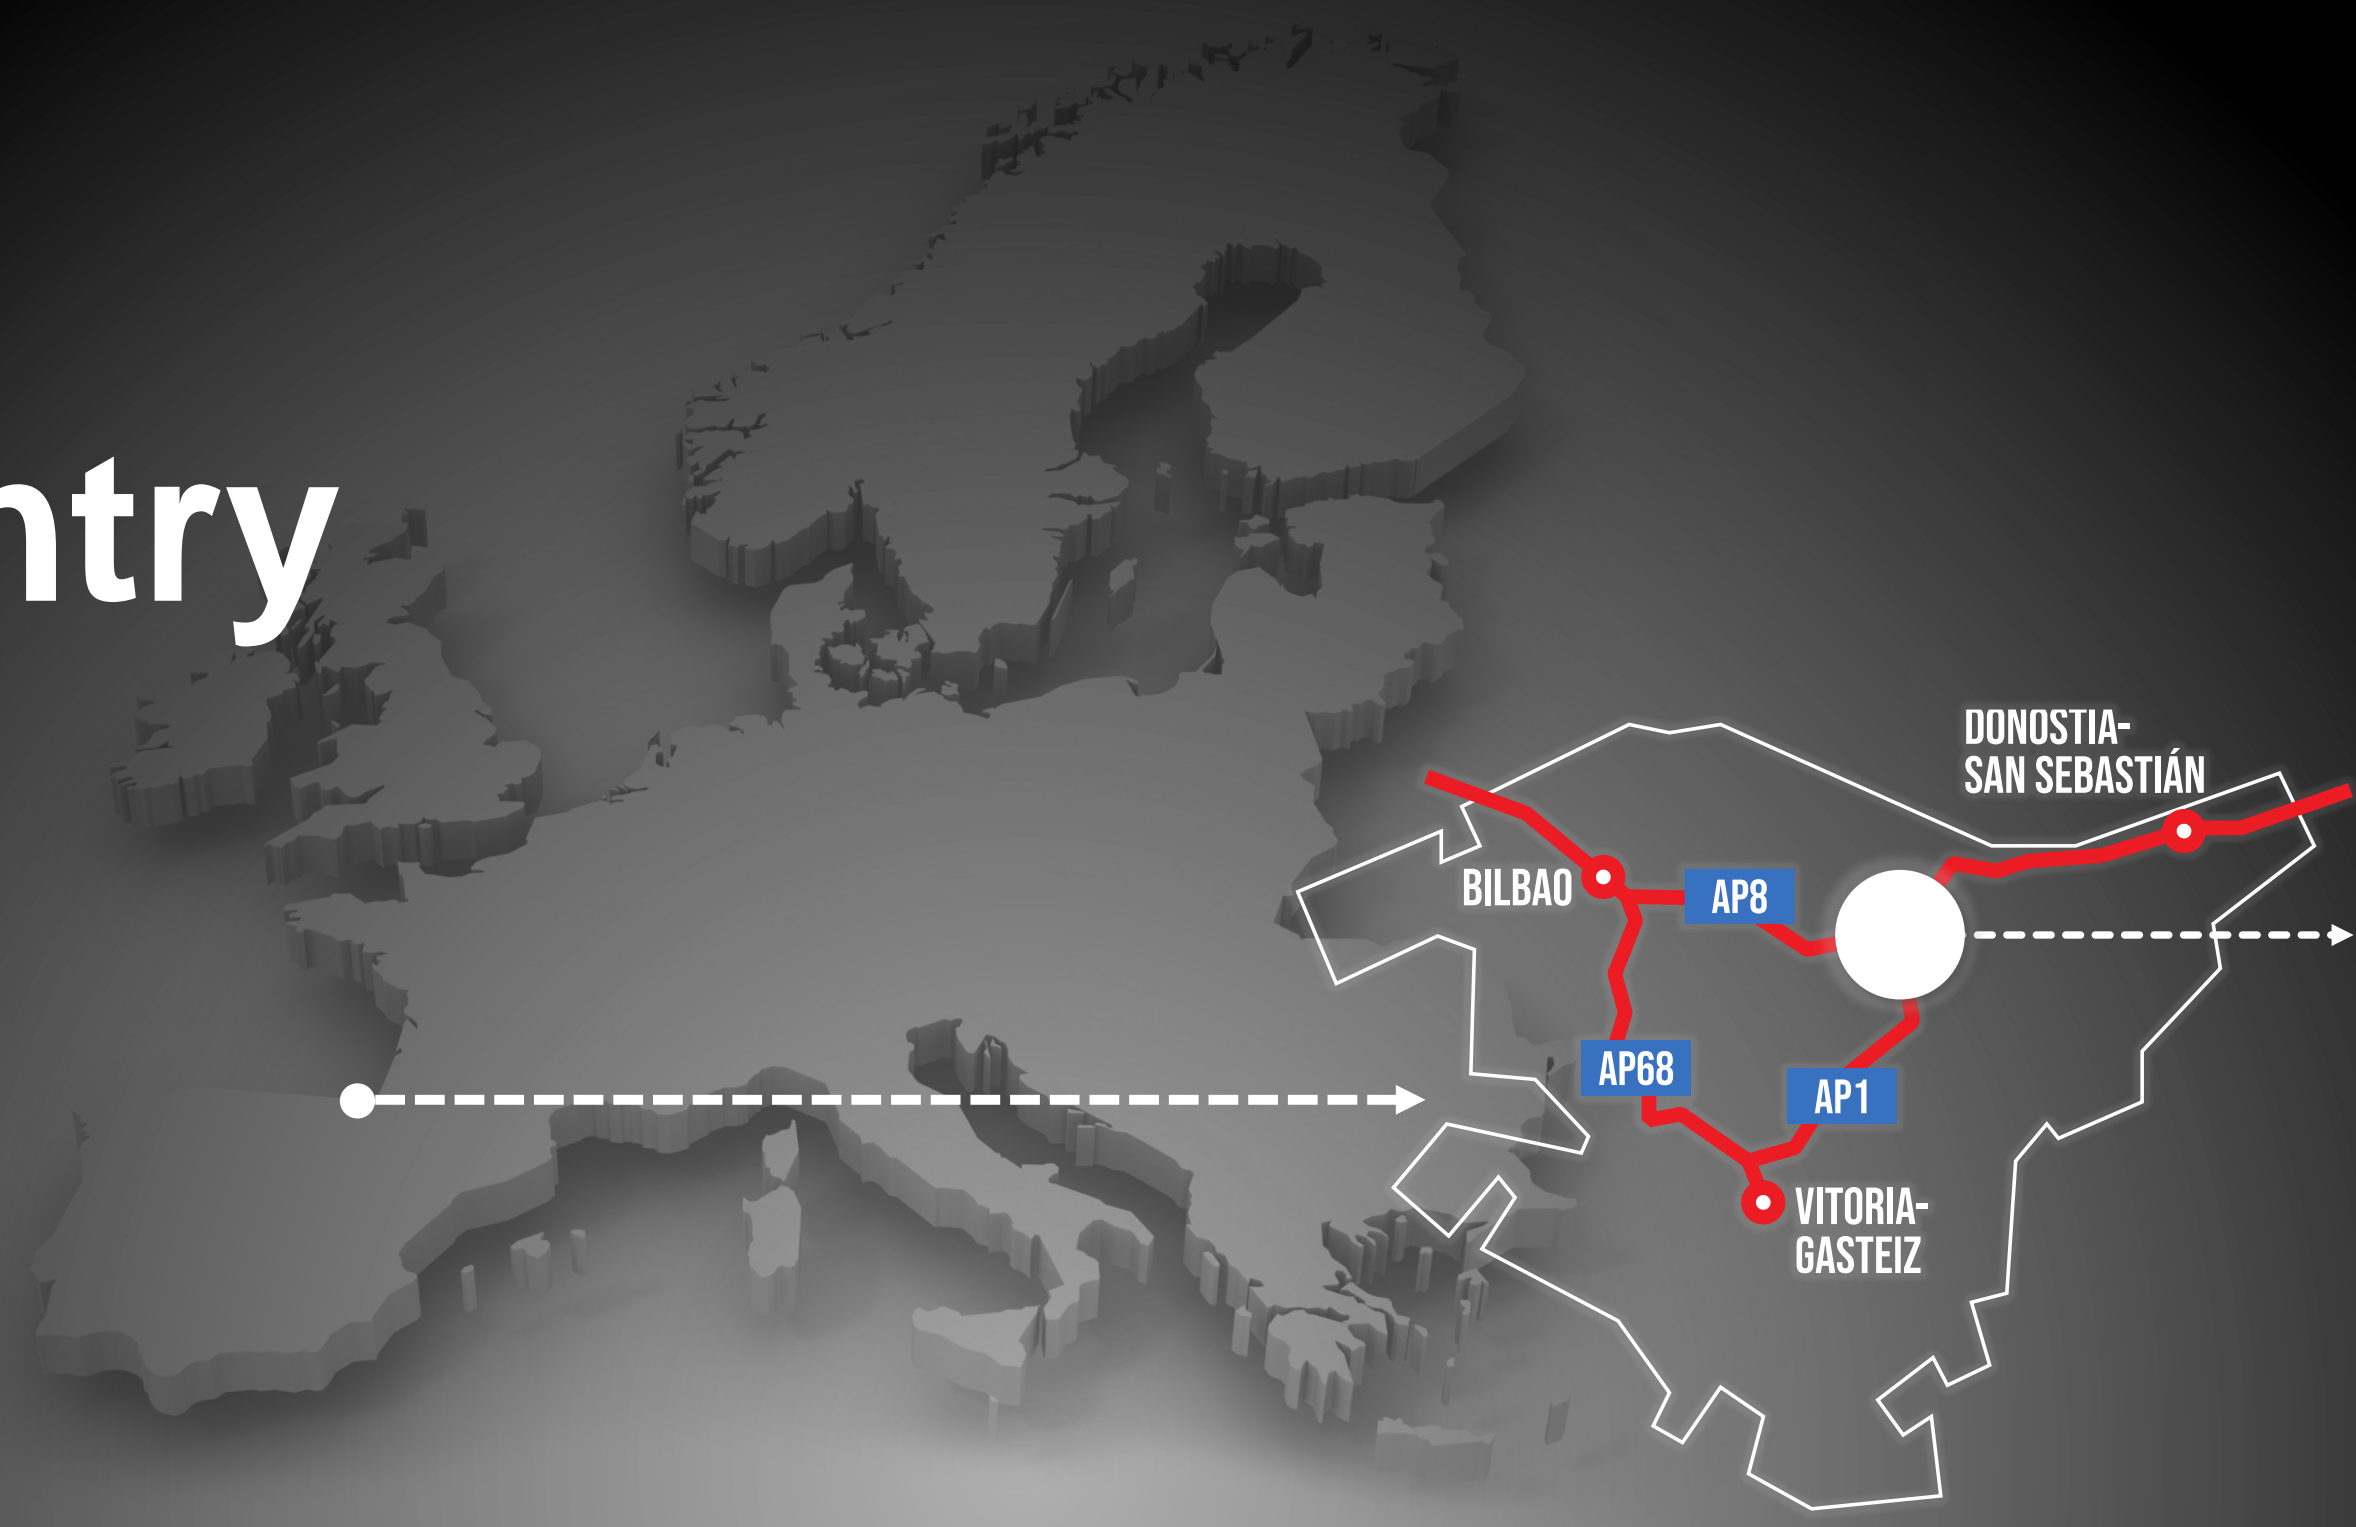

We are a territory with a **singular industrial concentration**, in addition to having 2 leading technology centres.

We have **leading companies** in the machine tool, aeronautics, aerospace, automotive sectors and capital goods.

We have, by tradition, a **complete ancillary industry network** that allows us to concentrate the entire value chain in the District.

Our District in the centre of the Basque Country

In the north of Spain and located halfway between the Basque capitals, the District has a strategic position thanks to its excellent and constantly improving communications.

697

Industrial establishments

Strategic location

Complete value chain

+500 companies specialising in precision technologies in sectors such as machine tools, capital goods, aeronautics and robotics.

Complete ancillary industry network

Top level ancillary companies in activities such as machining, grinding and boring.

High concentration of knowledge

Basque Research Technology Alliance - BRTA, Euskadi Scientific-Technological Consortium

2 universities with technical specialities

1 innovation and technology transfer centre for SMEs

12 units of the Basque Network of Science, Technology and Innovation

2 technology centres

6 Vocational Training centres

Business Association **BPTD**

The Association was founded on the initiative of a group of businessmen on May 8, 2019. It currently consists of 38 companies and organizations and its objective is to support the generation of new industrial activity in the field of precision technologies, through cooperative work in 3 fields of action:

Talent

We work on the alignment and strengthening of the training capacities with the needs of the companies, building, retaining and attracting talent.

Generation of economic activity

We work together in the implementation of new business projects, supporting both consolidated companies and new entrepreneurs.

Innovation

We develop strategic projects in the field of precision technologies in order to complement the available means in the District with those required, and so we can be a benchmark at international level.

10 Reasons to be part of BPTD

1 Unique Ecosystem

We integrate you into a unique ecosystem of around 700 industrial establishments that comprise the complete industrial fabric of the District, some of them being leaders in precision technologies.

2 Manufacture from 0

We have the entire **value chain** for manufacturing a product from 0 (suppliers of design, manufacture, auxiliary operations, assembly and set-up).

3 Support of R&D Centres

The support of 2 leading research technology centres and 1 innovation and technology transfer centre for SMEs will facilitate the transfer of knowledge to your organisation.

4 Productive and qualified talent

You will have the most productive and qualified talent at your disposal.

130% Productivity per worker.

39.2% Gross Value Added (GVA) generated by the District's industry.

(Basque Autonomous Region = 24.4 %) : EUSTAT. Municipal GDP. 2019

5 Multiple land opportunities

Possibility of opting to different **land opportunities** (urbanized plots, already constructed industrial buildings and buildings of interest for refurbishment) for the implementation of new economic activity.

10 Reasons to be part of BPTD

6 Prestige as advanced manufacturers
Position yourself as a **benchmark in the field of precision technologies.**

9 Collaboration and strategic alliances
You will be able to take part in **strategic alliances with the** existing industrial fabric in the region (BPTD Business Association).

7 Towards a sustainable industry
You can join the commitment to drive the **industry** in a **sustainable** way that **respects** environmental and social standards, thanks to the development of our own circular economy agenda.

10 One of the most advanced regions in the world
You will be part of one of the **most advanced regions in the world with a** great quality of life: The Basque Country ranks **81st in GDP per inhabitant** out of a total of 330 OECD regions. (Source: www.spri.eus-2019).

8 Collaborative Spaces
You will have at your disposal collaborative spaces that support the development of your business project, such as incubators and spaces dedicated to holding meetings, conferences, presentations, congresses, and other types of events.
